Statement of supporting and aiding the uprising of the sons of the South

The oppression that the Muslim Algerian people is subjected to since the independence no other Arab and Muslim nation have been subjected to such in the past decades, and that oppression doubled when that people choose the Sharia as a methodology of life, so the military rule subjected various kinds sufferings and torture beginning with the detentions of the desert then it was followed by the indiscriminate arrests campaigns accompanied by the most severe kinds of physical and psychological, and the youth of Algeria weren't safe from the campaigns individual and collective kidnaps without trail, also the remote villages and poor hamlets weren't safe from the operations of forced displacement that affected around three million people, which represents almost tenth of the population of Algeria in a displacement operation which is the most heinous in the modern history of Algeria, with spreading terror amidst all the groups of the Muslim Algerian people.

The Algerian regime thought that it crushed the spirit of resistance of this proud people, so the influentials in power plundered their money, especially with the oil boom during the past decade, and used the rest of the oil and gas money to strengthen the oppressive agencies, to humiliate every freeman who wants to keep an end for the policy of oppression and marginalization, or seeks a decent life for this oppressed Muslim people.

The natural resources of this rich country turned a private property for the generals of Algeria and their corrupt political facade, and the Algerian youth turned to beggars panting behind a job that he only gets by a close call, and losing face, which pushed those youth to take the boats of death or demonstrate in the streets against the policy of oppression and marginalization, so their reward every time were batons and tear gases and even live bullets in many cases, which is the only language known by the generals of Algeria – the remnants of the French occupier - to silence every free voice.

The events of the South and the call of the youth to demonstrate in the streets, is a natural response for the policy of marginalization and favoritism that is adopted by the corrupt regime in Algeria in general, and this region that is considered the lungs of Algeria in particular.

And we in Al-Qaeda Organization in the Islamic Maghreb declare our support for the legitimate demands of the youth of that region and point out the following:

1. Uniting their legitimate demands and drafting it clearly to be understood by the Muslim Algerian people in general so that they don't leave an opportunity for the criminal regime to lie and slander them.

2. Uniting the leadership of the demonstrations and choosing properly and keeping the sacrifices of our sons in good hands that doesn't accept carrots or fear intimidation.

3. Not responding to the corrupt mediators who shed crocodile tears for the interests of Algeria, which is a policy that the tyrants of Algeria resort to silence the youth and going around their legitimate demands.

4. We warn the youth of the South and its freemen from being deceived by the false promises of the government which the prime minster began to launch to absorb the anger of the rebellious youth and disperse their ranks.

5. We call the youth of Algeria in the other regions to aid their brothers in the South and follow their example to go out and demonstrate against the policy oppression and marginalization and favoritism that is adopted by the government of thieves and beware from the lies of the official media and its fabrication on the freemen of the South.

6. We warn the youth of Algeria and its freemen from their blessed revolution being contained by the deceitful regime, and being satisfied by the half-solutions that only increased our humiliation and lose since the independence.

7. We call the security and military agencies not to be involved in shedding the blood of oppressed innocents under the pretext of obeying orders, peace and blessings of Allah be upon him said: "There is no obedience to creation in disobedience to the Creator".

8. We declare that we stand next to the oppressed youth of the South, and our support for their legitimate demands, and we call them to be patient and avoid corruption in their demonstrations, and preserve the safety of the possessions of the Muslims from the hands of the thugs of the regime and the deviants to maintain the trust of the people and their support for their legitimate demands.

And our intention is for the sake of Allah and He guides to the right path.

(and Allah is the master of His affair, but most people do not know)
